

BioXcel Therapeutics to Present at the 20th Annual HC Wainwright Global Investment Conference

August 28, 2018

NEW HAVEN, Conn., Aug. 28, 2018 (GLOBE NEWSWIRE) -- BioXcel Therapeutics, Inc. ("BTI") (Nasdaq: BTAI), a clinical stage biopharmaceutical development company utilizing novel artificial intelligence approaches to identify the next wave of medicines across neuroscience and immuno-oncology, today announced that Dr. Vimal Mehta, Founder and Chief Executive Officer of BTI, will present at the 20th Annual Global Investment Conference. The conference is being held on September 4-6, 2018 in New York City.

Details of the Conference:

Event: 20th Annual HC Wainwright Global Investment Conference
Date: September 5, 2018
Time: 10:50 - 11:15 AM ET

A live webcast of the presentation will be accessible through the Investors section of the Company's website at www.bioxccltherapeutics.com. Following the conference, the webcast will be archived on the BioXcel Therapeutics website for 30 days.

In addition to his presentation, Dr. Mehta will be hosting 1-on-1 investor meetings at the conference. Investors attending the conference who are interested in meeting with BTI management should contact their HC Wainwright representative.

About BioXcel Therapeutics, Inc.:

BioXcel Therapeutics, Inc. is a clinical stage biopharmaceutical company focused on drug development that utilizes novel artificial intelligence approaches to identify the next wave of medicines across neuroscience and immuno-oncology. The Company's drug re-innovation approach leverages existing approved drugs and/or clinically validated product candidates together with big data and proprietary machine learning algorithms to identify new therapeutic indices. The Company's two most advanced clinical development programs are BXCL501, a sublingual thin film formulation designed for acute treatment of agitation resulting from neurological and psychiatric disorders, and BXCL701, an immuno-oncology agent designed for treatment of a rare form of prostate cancer and for treatment of pancreatic cancer.
